MARTIN, TENNESSEE, MONDAY, MARCH 11, 1935

PLANS COMPLETED FOR REGIONAL TOURNAMENT

Regional Tourney Meets Here This Week

Sixteen Teams from Six West Tennessee Districts Will Be Here Three Days

The West Tennessee Junior College Athletic Tournament, the 1935 regional tournament for the high schools of six West Tennessee districts, will be held in the Junior College gym on Thursday, Friday and Saturday, March 14, 15 and 16. The tournament will be thrown open to the 100 players and coaches who will come here.

The tournament is being sponsored by the Martin High School in cooperation with the Junior College. The tourney was brought here through the efforts of Superintendent of City Schools, Spencer Taylor.

Plans are being made by C. H. H. K. Griffith to present a school basketball tournament for the 100 teams competing in the tournament. The tournament will be held on the 14th, 15th and 16th of March.

These games will be played at 5:00 p.m. on Thursday, March 14, at 7:00 p.m. on Friday, March 15, and at 10:00 a.m. on Saturday, March 16. The complete schedule for the tournament is as follows:

The tournament will also consist of basketball, football and football games. Harry Carter, scorer, and T. O. Griffin, timer.

The games are scheduled as follows:

Thursday afternoon session: 1:00 P.M. Decaturville vs. Rutherford; 2:00 P.M. Dresden vs. Alamo; 3:00 P.M. Tech High (Memphis) vs. Alamo; 4:00 P.M. Yorkville vs. Camden.

Thursday night session: 7:00 P.M. Jackson vs. Middleton; 8:00 P.M. Rives vs. Collierville; 9:00 P.M. Bartlett vs. Martin; 10:00 P.M. Big Sandy vs. Dixie.

Friday afternoon session: 3:00 P.M. winner 1:00 p.m. Thursday game vs. winner 2:00 p.m. Thursday game; 4:00 P.M. winner 3:00 p.m. Thursday game vs. winner 1:00 p.m. Thursday game.

Friday afternoon session: 7:30 P.M. winner 7:00 p.m. Thursday game vs. winner 8:00 p.m. Thursday game; 8:30 P.M. winner 9:00 p.m. Thursday game vs. winner 10:00 p.m. Thursday game.

Saturday afternoon session: 1:30 P.M. winner 3:00 p.m. Friday game vs. winner 4:00 p.m. Friday game; 2:30 P.M. winner 7:30 p.m. Friday game vs. winner 8:30 p.m. Friday game.

Saturday night session: 8:00 P.M. Decaturville vs. Rutherford.

Home Ec Class Makes Its Own Dresses

Girls in Textiles Class Make and Critique Dresses and Smocks

A group of girls in the textiles class at the Junior College are making and critiquing dresses and smocks. The girls are working on their own designs and are very proud of their work.

The girls are working on their own designs and are very proud of their work. They are also learning about the different types of fabrics and how to use them in their designs.

Father, Mother, and Daughter To Attend West Tennessee Teachers

Mr. and Mrs. H. H. Harris, father and mother of a child of the Junior College, are attending the West Tennessee Teachers' Convention at Memphis during the Spring vacation. Rachel is the only child of Mr. and Mrs. H. H. Harris, who are in the Junior College. Mr. Harris, who attended the Junior College during the spring and summer of 1934, is to receive his degree in May.

While attending the Junior College, Mr. Harris attracted wide attention because of his appearance in a trailer which he has built. He is an expensive car has been built by students who have made themselves homes and a car for their own use.

"Red" Burdette Makes All-Conference Team

Burdette Leads Varsity Squad in Scoring With a Total of 226 Points

Robert H. Burdette, star center of the Junior Varsity squad, was named as center on the mythical Mississippi Valley All-Conference basketball team by the coaches of the conference. This recognition of Burdette's outstanding playing is all the greater for the fact that most of the other members of the imaginary team were apprentices in four-year colleges. Burdette is a Freshman playing his first year of college basketball.

Burdette, six feet three and blond, has starred in most of the games played by the Junior Vols. He was the high scoring man on the squad, and one of the high scoring men of the conference. He scored 226 points in seventeen games, an average of 13.2 points a game.

In addition to leading in points scored, Burdette was second high man in percentage of free throws made. Sixty-nine percent of his free throws counted. His average was topped by that of James Long, who made exactly seven out of every ten shots, an average of seventy percent. Burdette is hoping for an even better record next year. He is now near Martin and is a graduate of the local high school.

HORSE SHOW PLANNED BY COLLEGE AG CLUB

The Junior College Agricultural Club is planning a horse show to be held at the college grounds in the early Spring. The show will be open to all horses and will be a great opportunity for the students to see and learn about the different types of horses.

Bushart, Keiser Chosen Most Representative

Doris, Bolerjack Most Beautiful on Campus, Baker Handsomest, Oliver and Luck Most Popular

The first vote in the contest sponsored by the Volette to select the most representative, the most popular, the most beautiful and the most handsome students on the campus was held at last Tuesday's general assembly. Three girls and three boys were selected in the first of three elimination votes taken in three successive assemblies. The three votes had narrowed the list of those in the running for each prize to three students, from which the winners were chosen.

The winners today: Most Representative, girl, Miss Bushart; boy, Sam Keiser; Most Beautiful, girl, Doris Bolerjack; boy, Sam Baker; Most Handsome, boy, Sam Baker; Most Popular, girl, Doris Bolerjack; boy, Sam Baker.

Miss Bushart, a freshman, is a native of Carter Point High School in Texas. She is an honor student and was inducted into the Volette during the Winter quarter just closed. She is the most representative young lady. Miss Bushart becomes Miss UTJC.

Sam Keiser is also an honor student, a football and basketball letterman, president of the freshman class and of the Pre-Med Club. Keiser comes from the Union City High School.

Miss Bolerjack comes from Gibson High School in the county of Gibson. Winning beauty contests is not new to Miss Bolerjack, she having been selected before in her home town and county as one of their most attractive young ladies. Miss Bolerjack is a blonde, which gives this type a victory.

Sam Baker, Greenfield, is six feet and one inch tall, has dark brown wavy hair. Not a shock, Baker played a full-back position on the U. T. Junior College football team.

Miss C. L. Oliver, Martin, is an attractive, blond-haired young lady, member of the Sophomore class. She is a member of the Junior College orchestra and has won a part of her funds with her voice as well as with a winsome personality.

Victor Luck of Hickory, Wingo, Kentucky, is a Sophomore, member of the International Reading Club and active in student life. He is a ready smile and a handsome young man.

Miss R. H. Dean, Leno, and Anne Keiser, also in the running, were the most popular girls in the campus. They were both in the running for the most beautiful prize.

Sam Keiser, who was in the running for the most handsome prize, was also in the running for the most popular prize.

Sam Keiser, who was in the running for the most handsome prize, was also in the running for the most popular prize. He was a good student and a good athlete.

Sam Keiser, who was in the running for the most handsome prize, was also in the running for the most popular prize. He was a good student and a good athlete.

Sam Keiser, who was in the running for the most handsome prize, was also in the running for the most popular prize. He was a good student and a good athlete.

Sophomores Face Hard Road in Intramurals

Freshmen Have Many Chances to Overcome Sophomores' Eleven Point Lead

The recently completed schedule of intramural sports for the Spring quarter reveals the fact that the Sophomore class will be hard put to maintain its narrow lead in points gained in class competition. The score as it now stands is Sophomores 44, Freshmen 33.

The Freshman advantage during the quarter rests on the fact that there are a large number of individual events scheduled. The Freshmen, being more numerous, have a better chance to win in single competition.

The complete schedule of finals in various sports is as follows:

March 19, Boxing, wrestling, and girls' volleyball.
March 28, Boys' volleyball.
April 3, Girls' horseshoe.
April 9, Indoor carnival.
April 25, Track and field.
May 2, Girls' tennis.
May 7, Girls' baseball and boys' horseshoe.
May 9, Swimming.
May 14, Boys' tennis.

FORMER STUDENT TO BE ASSISTANT COUNTY AGENT OF WEAKLEY COUNTY

No. 1 E. Stafford recently resigned his position as principal of Somerville Elementary School to become assistant County Agent of Weakley County. Stafford has been teaching the eighth grade in the Somerville Grammar School for the past two years. This year he was elected principal of the school and coach of the Fayette County High School athletic team.

Stafford attended the University of Tennessee Junior College in 1931-32, 1932-33 and summer session of 1934. He was a good student and a good athlete. He was a member of the Junior College basketball team and was a member of the Junior College football team.

Regional Tourney Will Feature Great Teams

Jackson Favorite to Wear Crown Now Possessed by Decaturville

By EMMETT MAUM, MAX WEST-MORELAND and TUCK MANSEY

Decaturville, present title holders, will inaugurate the 1935 boys' regional tournament here at the Junior College gym Thursday afternoon at 1:00 p.m., when they take the floor against the fast leather bouncing quintet from Rutherford.

This will be the first regional tournament for Martin, and the scene of action will all take place in the Junior College gym. Houston Herndon, Humboldt High coach, will assist Ernest Dumas as referee. Other officials are Harry Carter, scorer, and T. O. Griffin, timer.

Favored entries, according to those observers of the teams are Jackson of the Fourth District, Decaturville of the Fifth District, and Rives of the Third District, all champions of their sections. Jackson employs the law-breaking, accurate passing attack and a zone defense. Decaturville also features the slow-break offense, with a man-to-man guarding system. Rives uses the fast-break offense, and they depend on both the man-to-man and zone defenses.

Here is the first round schedule, with (x) by our predictions: x-Decaturville vs. Rutherford, 1:00 p.m.

x-Medina vs. Dresden, 2:00 p.m.
x-Memphis Tech vs. Alamo, 3 p.m.
x-Yorkville vs. Camden, 4:00 p.m.
x-Jackson vs. Middleton, 7:00 p.m.
x-Rives vs. Collierville, 8:00 p.m.
x-Bartlett vs. Martin, 9:00 p.m.
x-Big Sandy vs. Dixie, 10:00 p.m.

Decaturville, the present champs, came through with colors flying to win the Fifth District crown, over a stubborn Middleton quintet, 29-23. Jackson, with an impressive season's record, easily won the Fourth District title from the Medina team 35-12. Rives with 32 wins and 2 losses for the season, also boasts a fine record for the season as well as being the Third District title holders. Rives defeated Dixie by a 37-14 score in the district finals.

All in all, this meet promises to be one of the most interesting ever staged in the regional competition. Upsets are due, but it is rather difficult to predict which will present the "dark horse" team.

Luck and Cowan to Report on Convention

Two Junior College Students Report On Three-Day Conference at Davidson, N. C.

Victor Luck and William B. Cowan will deliver to the meeting of the International Relations Club a report on the three-day convention of the Twelfth Annual Southern States Conference at Davidson College, N. C., on Thursday, Friday and Saturday, March 14, 15 and 16.

The conference was held at Davidson College, N. C., and was a very successful one. The students who attended the conference were very impressed with the quality of the speakers and the quality of the sessions.

In'tl Relations Club Donated Books

Junior College Receives Material From The Carnegie Endowment for International Peace

The Junior College International Relations Club has recently been included in the list of organizations receiving books and pamphlets from the Carnegie Endowment for International Peace. The February installment of books, which has arrived, consists of a number of volumes dealing with various phases of international relations.

A recent statement by the president of the Endowment explains the aim of the organization's work, as follows:

"The purpose of the Carnegie Endowment in undertaking this work of the International Relations Clubs is to instruct and enlighten public opinion. It is not to support exclusively any one view as to how best to treat the conditions which now prevail throughout the world, but to fix the attention of students on those underlying principles of international law and of international organization which must be agreed upon and put into action if a peaceful civilization is to continue."

The local club received the following books: "Russia's Iron Age," by William Henry Chamberlin; "Problems of the New Cuba," published by the Foreign Policy Association; "The British Way to Recovery," by Herbert Heaton; "The Permanent Court of International Justice," by Manley O. Hudson; "American Consultation in World Affairs," by Russell Cooper; "Arms and Munitions," by Baccus

and Nichols, and "The Saar Struggle," by Michael T. Florinsky.

The following pamphlets were also received: "Europe: War or Peace?" by Walter Duranty, World Affairs Pamphlets No. 7; "An American Foreign Policy Toward International Stability," Public Policy Pamphlet No. 14, by the University of Chicago Press; United States Government: "Letter to the President on Foreign Trade," by George N. Peek; "Letter to the President on International Credits for Foreign Trade and Other Purposes," by George N. Peek; "International Trade and Domestic Prosperity," by Secretary of State Cordell Hull; World Peace Foundation—Radio Series.

Campus Sparks

We wonder how well Miss Hearn enjoys the role of chauffeur for the office boy?

At last Jenkins has fallen in love with the cook. Atta girl, Miss Rule, put him to work.

Polly, Polsgrove wants to know why you and Scallybark go around the block so often?

Thelma, is Joe still preaching?

"Sugar Daddy" recently received a letter addressed to Hollis B. Franks and family? ? ?

Mr. Phillips, you should be more modest. You might embarrass the ladies.

Fatty Webb said that Jessie Barnes was his only true love. Jessie, how do you do it?

ANOTHER LETTER FROM A BALD-HEADED DAD TO HIS FLAPPER DAUGHTER

Dear Daughter:

The saddest fact in human experience is youth's unwillingness or inability to learn the way from those who have traveled it before.

I could weep, if I knew how, when I think of the hard knocks I might have avoided, if I had accepted the advice of those who were older and wiser.

Perhaps you will persist in making your own mistakes, but at least I can tell you where the traps are and point out the things I would do and not do if I had another chance.

I would force myself to be a "good mixer." A natural shyness and a few rebuffs robbed me of that advantage. Develop the habit of enjoying people and you will escape the boredom that oppresses the aloof and the timid.

Don't fix your heart on one buddy—or two or three—and let the rest of the world go by. Buddies move away or die as the years pass and it isn't easy to find new ones when you are no longer young. Keep making friends so the loss of one or two won't leave you bankrupt.

Learn to enjoy good music while you are young. There is something sublime in the best music that soothes and uplifts and purifies the spirit. If you develop a taste for jazz alone, you will lose part of your natural inheritance.

Learn also to appreciate good literature. A taste for trash in books is like any other taste for things that are low grade and common and vulgar. It keeps your mind in the gutter. You can't rise above the levelers, Miss Wisner will assume the position as teacher of Education that

of the stuff you are reading.

Don't hurt anybody's feelings. It is easy, through carelessness or indifference, to offend people who never have harmed you and make them bitter enemies.

But don't try to please everybody, either. It can't be done and the effort will kill your self-respect. Just do the thing that seems right to you and give no thought to the effect it will have on your popularity.

You were brought up in Sunday School as I was. Don't lose contact with the church. Modern critics ridicule religion, but it will help you and console you in time of trouble like nothing else can.

Before you learn to smoke or form any other habit, observe whether it has made other people healthier and happier, and before you accept any teaching or philosophy or 'ism, observe whether it has made its followers more kind and tolerant and charitable.

There is high adventure in blazing new trails and better trails, but it is silly to walk through the briars if you know in advance the briars are there.

Love,
Dad.

(By Robert Quillen)

MISS WISNER SUBSTITUTES FOR MR. J. PAUL PHILLIPS

Miss Oriole Wisner has returned to the Junior College to substitute for Professor J. Paul Phillips during his logy, and English. At the end of Mr. Phillips' vacation at the beginning of the Spring term, Miss Wisner will teach Education, Educational Psychology of the Spring Term for Teaching has held during the Spring and Summer teachers' terms for several years.

Since leaving the Junior College at the beginning of the Winter quarter, Miss Wisner has been teaching a model one-room school for the Tennessee Valley Authority at Muscle Shoals.

WELCOME, NEW STUDENTS!

The Volette wishes to welcome the new students who have registered and are registering for the Spring quarter.

The following have registered up Mignone Morrison, Dukedom, Tenn. to the time The Volette goes to press: Hattie Mae Howard, Union City, Tenn.

Ruva Jones, Martin, Tenn. Parmer Wharton, Palmersville, Tenn.

Rubel Hutchinson, Palmersville, Tenn.

Glen Stewart, Palmersville, Tenn. Augusta Winstead, Dresden, Tenn. Blance Short, Jr., Hornbeak, Tenn. Kattie Hooper, Denver, Tenn.

Emery Williams, Hornbeak, Tenn. Rachel Pinkston, Dresden, Tenn.

The Volette extends a cordial welcome to all in behalf of the University of Tennessee Junior College.

JEAN HEIDELBERG WILL NOT ATTEND U.T.J.C. THIS QUARTER

Jean Heidelberg, who is in Memphis recovering from her recent operation for appendicitis, will not return to the Junior College for the Spring quarter, it has been learned. Her absence is due to the illness and impending operation of her mother.

Jean is an honor student, president of the Home Economics Club, and a member of various student organizations.

I'll never let you down

I'm your best friend

I am your

Lucky Strike

There's nothing friendly about the sharp, bitter sting of unripe top tobacco leaves. There's nothing friendly about the grimy, flavorless bottom leaves. But there's a wealth of friendliness, of mildness in the rich,

mellow-ripe center leaves. And I am made of these fragrant, expensive center leaves, only.

I'll not irritate your throat. I'll never let you down. I'm your best friend. I am your Lucky Strike.

Farm Motors Class Tests Gas Engine

Ag Students Study Construction, Operation, Care and Repair of Farm Machinery

The Farm Motors class has just completed a series of experiments to determine the changes in power caused by operating a gas engine under varying conditions. By changing the speed and by timing the spark to agree with the speed students were able to obtain as much as three horse power from a one-and-a-half horse-power gas engine. Under other conditions the maximum power that could be supplied by the same engine was less than half of one horse-power.

This is but one of the many interesting and practical experiments that have been performed in the well-equipped Farm Motors laboratory. The experiments range from a mere inspection to dismantling and re-assembling of gas engines and electric motors.

The Junior College farm motors laboratory is one of the best equipped workshops of its kind in the South. It contains equipment to a value of approximately \$3,000.00. Much of the machinery was donated by manufacturing companies.

The testing of the gas engine was the last and one of the most difficult experiments performed by the class. The power was determined by the use of a Prony brake, one end of which rests on a pair of scales and the other end against the pulley of the engine. The friction of the pulley against the lever exerts a constant pressure on the scales. From the weight on the scales, the length of the lever, and the speed of the engine the horse-power is calculated. Three men are needed to conduct this experiment.

Although in ordinary work those who conducted this experiment may never find it necessary to test the horsepower of an engine, the knowledge gained of the effect of various adjustments on the power produced by a motor will undoubtedly prove to be of the greatest practical value.

Mr. DeMoss has made the social problem easy as xyz by taking all the flappers at once. Hurrah! Stay in there, Prof!

PHYSICAL DIRECTOR H. K. GRANTHAM

His building will be the scene of action in which the West Tennessee basketball championship will be won.

THE CHARACTER HEADER

The first column is for your first name. The 2nd column for your last name. Pick out your or your friend's initials and find out what you are.

A—ristocratic.	A—pe.
B—ashful.	B—uzzard.
C—ockeyed.	C—rab.
D—ippy.	D—ub.
E—gostistic.	E—el.
F—ishy.	F—lop.
G—reasy.	G—eezer.
H—orsey.	H—ippopotamus.
I—diotic.	I—nsect.
J—uicy.	J—ackal.
K—lunky.	K—isser.
L—ousy.	L—unatic.
M—ushy.	M—onkey.
N—utty.	N—itwit.
O—s-eyed.	O—ctopus.
P—oeyed.	P—igish.
Q—uarterback.	Q—uack.
R—atty.	R—unt.
S—loppy.	C—carecrow.
T—attoed.	T—ramp.
U—nemployed.	U—ndertaker.
V—icious.	V—amp.
W—ormy.	W—aterflea.
X—outhous.	X—ylophone.
Y—ummy.	Y—ap.
Z—igzag.	Z—ebra.

THE UNIVERSITY OF TENNESSEE JUNIOR COLLEGE AND ITS FUTURE

By PAUL MEEK, Executive Officer, The University of Tennessee Junior College

It has been said when a man marries he marries not only the girl of his choice, but also her entire family. The amount of truth involved here is usually discovered gradually, often too late. Those students who have espoused the University of Tennessee Junior College for furthering their educational development will do well to consider the "Family" of which it is a part. There are many advantages in this family relationship. All those young men and women who contemplate the extension of their formal and special training beyond the secondary level will likewise do well to weigh the advantages offered by the Junior College of the University of which it is a branch.

The University of Tennessee was founded by act of the first legislative body of the "Territory South of the River Ohio" on September 4, 1799—one day later than the first institution of higher learning west of the Alleghanies. It was at that time named for the Governor of the territory, Blount College. Soon it opened its doors for students in a small frame building in the heart of what is now Knoxville, but then the very outskirts of a mere village. This little college, thus, antedated the formation of the State of Tennessee by two years, and it has grown with and as an integral part of the State throughout its history.

Space does not permit us to trace the history of the University through its changing names and conditions, from its first frame building in Knoxville to its present array of fine structures in Knoxville, Memphis and Martin, and its experiment stations at Jackson, Columbia, and Crossville. The service rendered in the frame building touched only a few individuals, but the services today rendered by and under the administration of the University of Tennessee touch the lives of ninety thousand people of Tennessee. By far the larger number of these people are served throughout the counties of the state through soil investigations, rural economic studies, Agricultural and Home Economics Extension and gen-

SUPT. SPENCER TAYLOR

Supt. Taylor will be host to the Regional Basketball Tournament on Thursday, Friday and Saturday.

eral University Extension. The many colleges and schools of the University instruct 4,222 resident students, 1,578 extension students, or a total of 5,800.

The main University ideal and the type of the area to be served determined the establishment of the Martin branch, known as the University of Tennessee Junior College. The chief advantage of locating a branch of the University in this territory is the immediacy of the service such a branch can render to territorial activities. The Junior College is thus a unit of our great State University. And it has surrounding it all of the history, accomplishments and wisdom of one hundred forty-nine years.

The Campus of the University is the State of Tennessee. The regular session, spring term and summer quarter, and University Extension students totaled in 1933 for the divisions of the State: East Tennessee, 3,002; Middle Tennessee, 637; West Tennessee, 1,088. There were 680 out-of-state students. The Junior College students are included in the 1,088 from West Tennessee. The Martin

branch has drawn students from each of the twenty-one counties of the West Tennessee division of the University campus, from twenty counties outside West Tennessee and from six other states. Of 1,226 state students to study at the Junior College 1,181 have been from West Tennessee.

What is the future of the University of Tennessee Junior College? It will be determined by the future of the University of Tennessee, of which it is an integral part. The development of Tennessee's State University due to its wise leadership and long term planning has been phenomenal. By a continued and enlarged service to the people of Tennessee it is destined to continue its great, forward march. The comparatively new services the University is offering to the people through the Junior College at Martin may be expected to be improved and enriched in keeping with the specific and general developments of the University.

The activities of the University have developed in two ways as the needs and activities of the State have enlarged. On the one hand, as new industries and new occupations and increasing demands of the citizens have grown in the past fifty years, so has the State University added new courses, strengthened old courses and enlarged facilities to meet these needs and occupations and demands. In this way, the colleges and schools and departments have grown. On the other hand, it has become increasingly apparent that innumerable problems arise for solution in the development of the activities of any state. So there has been a widening of the type of service of the University. The next fifty years, it may be assumed, will offer to the State and its great University a host of problems and they will be met after the same fashion by strengthened courses, added courses and enlarged facilities. It will be a privilege and challenge to the Junior College at Martin to carry its share of the total assignment. Virtue is its own reward.

Go South, young man, go South is the cry of the youth of our country today. To the Tennessean the clarion call is, Go to The University of Tennessee, young people, go to the University of Tennessee Junior College.

They won't help you catch rivets —

*they won't cause any ills
or cure any ailments*

— but they Satisfy

... when anything satisfies it's got to be right... no "ifs" or "buts" about it.

Chesterfields satisfy because, first of all, they're made of the right kinds of mild ripe tobaccos. These tobaccos are thoroughly aged and then blended and cross-blended.

It takes time and it takes money, but whatever it costs in time or money we do it in order to give you a cigarette that's milder, a cigarette that tastes better.
